

MediKredit NAPPI Changes and Information

Circular Number: N016/2014
Circular Date: 12 November 2014
Effective Date: 17 November 2014

Important notice

Kindly take note of the new NAPPI File Layout v5.6 which will be implemented on 17 November 2014. Changes include the addition of new fields for prices in the Product Price Record to accommodate product prices greater than R1 million.

The existing product price fields will remain however for prices greater than R1 million, the price will reflect as R999999.99 which is the maximum price that can be accommodated in the current fields. Should you need the actual product price that is above R1 million, you will need to develop to read the product prices from the new fields.

There has been no change to the NAPPI file structure. The new fields have been inserted into current filler fields in the Product Price Record and the existing fields will remain and continue to be populated. See below details of the new fields (Nbr 16 and 17) included in the Product Price Record (Record 6 of the NAPPI File Layout v5.6):

NBR	FIELD NAME	LEN	TYP	DEC	REMARKS	START POS	END POS
1	Sequence Number	7	N	0	Note 6.1	1	7
2	Record Type Identifier	3	N	0	"209"; Note 6.2	8	10
