

MediKredit NAPPI Changes and Information

Circular Number: N005/2019
Circular Date: 28 February 2019
Effective Date: 1 March 2019

Important Notice

NAPPI Code Change for Revellex®

Initially the NAPPI code for Revellex® vial was allocated a pack size of 1 unit. During 2006, Schering Plough had a waste management program and requested the NAPPI pack size be changed from 1 unit to 10 millilitres in order to allow billing per millilitre and thereby enables sharing of a single vial across multiple patients. A new NAPPI code was then allocated due to the pack size change.

Janssen, the current applicant of the product, have indicated that the vial is single dose and have requested the pack size be reverted to 1 unit to ensure accurate billing of the entire vial. The NAPPI code will therefore be changed back to the pack size of 1 unit, as detailed in the table below.

SUPPLIER:	Janssen Cilag Pharmaceuticals
CHANGED DATE:	1 March 2019

DETAIL TABLE

Old NAPPI Code	New NAPPI Code	Old Product Name	New Product name	Old Pack Qty	New Pack Qty	Supplier
707507001	874930006	Revellex vial powder for reconstitution 100mg INF	Revellex vial powder for reconstitution 100mg INF 10ml	10ml	1 unit	Janssen

Please note that both NAPPI codes will be active from 1 March 2019 until 14 March 2019 to allow for transition to the new NAPPI code. From 15 March 2019 the old NAPPI will be discontinued and all stakeholders will need to use the new NAPPI code as indicated in the table above.
